

# A Quick Guide to Goose Breeds

## **Sebastopol**

White goose with curly feathers

Around 10lbs

20-30 eggs per year

Sweet and docile, more commonly a pet but loud enough for some guarding jobs

and an excellent mother. Very good with children.

## **Roman**

White goose, sometimes with a tuft at the top of the head.

10-15lbs

25-30 eggs per year

Curious, with a lot personality,

Romans imprint easily and are friendly, but are also good

watch-dog geese with excellent eyesight.

## **Dewlap Toulouse**

Huge gray goose with distinct "dewlaps" and loose fat.

35lbs

20-30 eggs per year

Very friendly and docile, an excellent family goose.

## **Buff**

Large with beautiful apricot feathers

15-20lbs

20-30 eggs per year

Often calm but can be aggressive if not imprinted. Excellent watchdogs and

beautiful family geese.

## **Toulouse**

Medium sized gray goose

15-20lbs

20-30 eggs per year

Can be aggressive, especially with chickens or during

mating season. Good guard

goose.

## **Pilgrim**

Autosexing mostly gray (females) and mostly white (males)

15-20lbs

20-25 eggs per year

Friendly family goose that imprints easily.

## Chinese

Upright, light weight brown or white goose with very large beak knob.

10lbs

30-35 eggs per year

Loud, very active, excellent weeders and guards

## Emden

Large white goose.

20lbs

35-45 eggs per year

Calm and docile bird, excellent egg layer for a goose.
